LOTTERY TICKETS

To the collector of early Americana in offering the following lots, one can readily see that America had progressed principally by the people having faith, and willing to take a chance. It is interesting to note that George Washington had signed some of these lottery tickets, and they were used to finance the Revolution, Philadelphia paved its streets by this form, also many enormous tracts of land were offered as prizes, the City Hall in New York City was financed by lottery, also the Harvard University. We think while these items may not have a strict place in Numismatics they are still interesting to the collectors.
